

Dr. Mark Hitchcock joins me today to respond to TBN's series called *God With Us*, which offers a very different understanding from what we believe the Bible clearly says about the End Times. Many of viewers reached out when they saw this series and were confused, so we wanted to help. In a spirit of love and respect, we address claims that the Rapture is just a fear tactic, that Matthew 24 and most of Revelation have already been fulfilled, and that the church will gradually take over the world before Jesus returns. We walk through what the Bible actually says in passages like Zechariah 14, Revelation 19, and Matthew 24. The world isn't getting better—it's getting worse. And Jesus said when He comes, it's going to be like the days of Noah. The church isn't going to deliver the world to Jesus. He's coming to take it over Himself.
