All eyes in the world are on Iran and the Middle East. But what we can see on the surface is only part of the story. Behind what we see, the Bible tells us there is a **spiritual war raging**, with Iran at the center of the enemy's strategy to oppose Israel and create chaos in that region. The Book of Daniel tells us about a high-ranking demon called **the Prince of Persia**, who was in charge of influencing Persia and its leaders 2,500 years ago. If there was a demonic Prince of Persia in 530 BC, we can be sure the same territorial demon is behind what is happening in Iran today. He is stimulating their strategy and stubbornness, inspiring their ideology, agitating their antisemitism, and activating their anger. Hormoz Shariat, the Billy Graham of Iran, calls the Prince of Persia **"a spirit of delay."** And that is exactly what we see from Iran today: delay, deception, and destruction.

In the second half, we answer viewer questions: How can Revelation 20:4–5 be the "first resurrection" if the dead in Christ rise at the Rapture? Are the Seven Lamps in Revelation 4–5 the same as the Seven Lampstands in Revelation 2–3? And what is the latest update on Babylon being rebuilt in Iraq?
